Work Experience

CodSoft | Intern

Aug'23 - Sep'23

- Web Development Intern (Remote)
- Created a Tribute page which is an overview of someone whom I admire in my life.
- Created a Job Board website which connects employer and job seekers where employers are the source of the resources and the job seeker can find and apply for their targeted job.

Projects

Tribute Page

A tribute page for Sachin Tendulkar who is as we all know is the “God of Cricket”. This is one of the projects I have worked on.

- Used HTML and CSS.
- Experiment with font styles, use paragraphs effectively, and play with background colors.

Job Board Website

A job board website where employers can post job openings and job seekers can search and apply for jobs.

- Used ReactJS for the frontend UI.
- NodeJS, ExpressJS and a database like MongoDB (MERN) for the backend.

Matritva – A health care web app

An online website to check your minor health issues at home by using some survey questions.

- Used HTML, CSS, JavaScript and Firebase technologies.
- Different working and responsive user profile segments for the ease of users.

Participations
